

# PETITION TO COBURG CITY COUNCIL

We, Coburg residents north of E. Locust St. to the end of town, are opposed to the opening of dead end streets in order to connect E. Van Duyn and E. Macy Streets to N. Harrison St. for purposes of adding additional access to the Wiechert Subdivision, as proposed in the Appeal of July 27th to the Planning Commission's approval of the subdivision. We have 11 children in our three block area and we already have issues with motorists using N.Harrison, circumventing the stop light and traffic on Willamette St., to come in and out of our town. The fact that N Harrison is at times already dangerous and is being used by commuters on top of locals makes opening up these east west streets unworkable in our opinion. We urge the council not to consider changes to the plan already approved concerning our streets.
